

### INSULATION HASP LOCK WITH 6 HOLES MODEL NO. LOTO-IH6

The Insulation Hasp Lock with 6 Holes is a specialized safety device designed to provide secure locking and effective insulation for electrical and mechanical systems. This hasp lock is particularly useful in environments where protection from accidental activation or tampering is critical, such as in industrial settings, electrical panels, and maintenance areas.

#### FEATURES

- High-Strength Construction
- Insulation Design
- Six-Hole Configuration
- Enhanced Security
- Corrosion Resistance
- Easy Installation

#### APPLICATIONS

- Electrical Lockout/Tagout (LOTO)
- Industrial Safety
- Control Enclosures
- Maintenance Procedures
