

LIFE JACKET

MODEL NO. JL-150B

A SOLAS life jacket for adults is a high-performance personal flotation device (PFD) designed to meet the stringent safety standards set by the International Maritime Organization (IMO) under the SOLAS (Safety of Life at Sea) regulations. These life jackets are primarily used in maritime environments and are ideal for use on ships, boats, and offshore vessels, ensuring the safety of crew and passengers in emergencies.

SPECIFICATION & FEATURES

- **Material:** Made from Oxford Fabric with 4 reflective tape and 1 Small Pocket. Outer layer is designed to withstand wear and tear from exposure to water, UV Rays and saltwater.
- **Buoyancy:** Life jackets for adults are designed with 150N buoyancy to support the wearer's weight and keep them afloat.
- **Fit and Comfort:** This life jacket comes with adjustable straps around the chest, waist and shoulders to ensure a snug, secure fit for adults of various sizes. This model also features padded neck support and adjustable side straps to enhance comfort especially during extended wear.
