

CHEMICAL GLOVES MODEL NO. CG

Patron Safety (Model: CG) Green nitrile flocked chemical-resistant gloves are specialized protective gloves designed to provide resistance against a variety of chemicals. These gloves combine the chemical resistance of nitrile with the added comfort of a flocked lining. Patron Safety CG Green nitrile flocked chemical-resistant gloves are suitable for a variety of applications, including chemical handling, laboratory work, industrial processes, maintenance tasks, and other situations where protection against chemical exposure is crucial.
